

# SAND RIB

High Flotation

Excellent Traction

- For small industrial vehicles in sand operations.
- Good resistance to abrasion and tear with maximum traction and high flotation.

## SAND RIB

| Tire Size | P. R. | TT/TL | Tread Depth | Rim  | Outer Diameter | Section Width | Inflation Pressure | Load Capacity |
|-----------|-------|-------|-------------|------|----------------|---------------|--------------------|---------------|
|           |       |       |             |      |                |               |                    | Speed 10 km/h |
|           |       |       | mm          |      | mm             | mm            | KPa                | Kg            |
| 10-16.5   | 6     | TL    | 12.0        | 8.25 | 741            | 266           | 310                | 1590          |
|           | 8     |       |             |      |                |               | 410                | 1880          |
|           | 10    |       |             |      |                |               | 520                | 2160          |
