GOODRIDE®

New Generation Mixed Drive Tyre

11R22.5-16

AD795

Specialised Compound

Built with a low-heat, cut-resistant compound that keeps tyre temperatures down and extends its lifespan.

High Saturation & Reinforced Design

High-saturation tread pattern with reinforced blocks delivers outstanding load capacity, excellent wear resistance, and added strength where it counts.

Optimised Shape for Reliability

Tyre inflation with minimal deformation, offering superior durability and high-speed performance, ensuring enhanced safety for long-distance transportation.

Extra-Wide Contact for Better Grip

Offers a broader footprint and deeper tread than leading competitors, giving you improved traction and stability on all terrains.
